INTERIOR SELECTIONS

The Briar shown with the Luxe interior package in Luxury finishes.

## INTERIORS

### Crafted for the Individual

At Bramble Park, interior selections are inspired by the many ways homeowners define life at Palmetto Bluff. There is no single expression of the Bluff—each perspective is shaped by personal experience, taste, and tradition.

For some, it's the timeless charm of the Lowcountry—soft blues, crisp whites, and a classic Southern sensibility. For others, it's a more rustic, generational aesthetic, reminiscent of a hunting lodge, with rich woods, layered textures, and a deep sense of heritage. And for those drawn to a lighter, more contemporary approach, a clean and modern interpretation offers understated elegance.

Rather than defining one singular look, Bramble Park embraces this diversity through three distinct interior aesthetics. Each is thoughtfully designed to reflect a different vision of the Palmetto Bluff lifestyle, while remaining cohesive within the community's overall design language.

The result is a collection of homes that feel both personal and purposeful—authentic to the Bluff, yet tailored to the individual.

LUXE | An elevated aesthetic defined by rich finishes, curated details, and a sophisticated expression of Lowcountry design.

**MODERN** | A modern, design-forward aesthetic with clean lines, natural materials, and quiet contrast.

**SIGNATURE** | A lighter, traditional aesthetic rooted in Southern style, defined by clean lines and an understated approach to living.

## FINISHES
